Report of the NEA Resolutions Committee
To the 2016 NSEA Delegate Assembly,
By Alan Bone, Westside; Bobby Miller, Omaha

The NSEA Resolutions Committee met on June 17, 2015, to revise the NSEA resolutions document based on changes adopted at the 2015 Delegate Assembly, and to re-order existing resolutions to improve the flow of individual resolutions from one to the next.

The winter meeting of the NEA Resolutions Committee was held online during the days of Feb. 19 and Feb. 21. Alan Bone and Bobby Miller were the two elected representatives from Nebraska on the committee and both participated in these meetings. The committee convened online on Thursday evening to examine proposals and elicit questions. It convened again on Saturday to debate and vote on those proposals.

Proposals dealt with a wide variety of issues regarding education and social justice, similar to those in existing NEA resolutions.

NEA Vice President Becky Pringle spoke to the committee at the start of the Thursday meeting, addressing the importance of the committee's work on resolutions, which are the organization's core belief statements.

The NSEA Resolutions Committee met on March 5, just prior to a day-long NSEA Board of Directors meeting, to discuss work remaining from the June meeting and to prepare resolutions for submission to this year's Delegate Assembly. The committee recommended several changes, which appear elsewhere in this document.
