

Personnel Committee
Jenni Benson, Lincoln, Chair

The Personnel Committee is a 13-member committee of the NSEA Board of Directors that meets regularly throughout the year to bring recommendations to the NSEA Board regarding personnel issues.

The Personnel Committee recommends to the Board of Directors salaries for the management employees. This includes salaries for the president, the executive director, the associate executive director, the comptroller, the president's administrative assistant, the executive director's administrative assistant, and the associate executive director's administrative assistant. Action for continued employment of the executive director, and other management staff were taken.

Last year the Personnel Committee developed a comprehensive evaluation for the Executive Director. We piloted the evaluation with Craig Christiansen. The process was comprehensive and went smoothly.

The Personnel Committee also served in an advisory capacity for the hiring process for a new executive director. One member of the Personnel Committee was elected to serve on the interview committee along with the NSEA executive team.

In addition, the committee approved a Gallup engagement survey for the staff. The management staff were trained by Gallup and are conducting ongoing training for the staff.
