

**Report of the Delegate Assembly Planning Committee**  
**By Julie Colby, Lincoln Education Association, Chair**

This year's planning committee started by looking at the data from last year's Delegate Assembly evaluations. The professional development on Friday Night was a huge success. So, therefore it will continue at this year's Delegate Assembly. There will be several great learning opportunities on Friday night. The meeting will be called to order on Friday night and delegates will have a wonderful opportunity to hear the keynote speaker.

A short video clip of Delegate Assembly was made and posted social media and the website to help inform members about DA. Board members will wear a red lanyard, and other experienced members will once again wear 'ASK ME' buttons to help delegates, especially first-time delegates, with questions.

The planning committee also wanted to continue to support and promote the Children's Fund. The Children's Fund has been an excellent resource for helping students with a variety of needs, from helping provide transportation to appointments, medication, eye glasses and clothing, for many years. There will be a 50/50 split-the-pot raffle.

Also our NSEA president and our executive director will provide treats for your building and there will be a gift card raffle. These raffles will continue to raise money for the Children's Fund.

Lastly, the committee looked at bids from around the state for future Delegate Assemblies and decided to take a motion to the NSEA Board of Directors to have DA at Cornhusker Marriott Hotel in Lincoln for 2022 and 2023. The board approved.
