

Report of the Higher Ed Academy Committee
By Andrew Lenzen, Western Nebraska Community College Education
Association, Chair

The NSEA Higher Ed Academy (HEA) is the gathering of higher education members from around the state. This group had a conference in summer 2018, with more than a dozen members from Nebraska community colleges, state colleges and the university attending.

A number of NSEA officials, including President Jenni Benson, Executive Director Maddie Fennell Organizational Specialist Rich Wergin, met with higher ed members in several different sessions. Much information was shared by and to members, comments and concerns were discussed, and fellowship was enjoyed by all.

All higher education members need to be aware of an important change upcoming. The higher education seat on the NSEA Board of Directors will be a voting seat, starting in fall 2019. This position was formerly ex-officio and non-voting. The delegates at the 2017 Delegate Assembly approved this change.

The HEA is grateful to NSEA for hosting the summer 2018 conference at NSEA headquarters in Lincoln.
