

**Report of the School Safety Committee
Submitted by Lisa Hanson**

This committee will work toward providing education, member training, and legislation development that focuses on ensuring the health and safety of staff and students in Nebraska schools. School districts will designate one or more employees to serve as a behavior awareness point of contact. This person will be trained and coordinate access to community mental and behavior health and counseling service providers for students with a registry of service provider resources. Safety interventions and removal policy will be put in place with a guidance document from NDE.
