

**Report of the NewGEN (Early Educators) Committee  
Submitted by Christian Schuerman**

This year, NewGen continued to engage and support new educators. This has proven to be a struggle over the past few years and continued this year. As a committee, we brainstormed ideas to better engage our newer educators, and have decided to focus on the statewide in-person events. As of this writing, we have a meeting next week in order to plan events during the DA and this summer's NSEA-U. Details about those events will be forthcoming (hopefully announced before April 1).
