

# Reports to the Assembly

## **Report of NewGEN (Early Educators)**

*Submitted by Jenni Benson*

There was Early Educator work through locals, NSEA leadership and staff to engage and support new educators. Several events were held across the state promoting opportunities for new educators. New educators attended state and local conferences. NSEA hosted NSEA-U and Intergenerational Mentoring conferences geared at providing training and opportunities for support. The NSEA is partnering with several organizations that are working on the educator shortage with a focus on recruitment and retention of educators across Nebraska. Several legislative bills were introduced to support new to the profession teachers. These bills focused on student loan forgiveness, certification, and more resources to schools.

NSEA is looking for more new educators who would like to work on support, solutions, and resources for our new to the profession educators. Please contact President Jenni Benson if you would like to serve.
