Dear Colleague:

Anyone who has ever built a house knows that the foundation goes in first and must be built well. A well-laid foundation is a vital factor in the home’s stability and longevity.

The pages you hold in your hand form the foundation of NSEA’s work. These Bylaws and Resolutions have evolved over the years and reflect the wisdom, experience, expectations and ideals of thousands of your colleagues, past and present.

Because this is a living document, changes are made each year. Members are passionate about their profession and ask that this document reflect that passion, that desire for the Association and the profession to succeed. These pages will guide your NSEA Board of Directors for the 2017-18 Association year. Here is what you’ll find within these pages:

- The Mission Statement and Strategic Objectives set the direction of the Association, outlining why the NSEA exists and what the Association designates as its primary goals.
- The Bylaws are the fundamental rules which govern basic organizational questions, such as the definition of membership and election of officers. The Bylaws can never be suspended, and can only be changed by a two-thirds majority in a secret ballot at the annual Delegate Assembly — and then only after delegates have received prior notice of the proposed change.
- The NSEA Resolutions are formal expressions of belief and principle. Members at Delegate Assembly deliberated on, and then voted to approve, this current edition of Resolutions, which provide philosophical direction to Association leaders on specific issues.
- New Business Items are directives from the Delegate Assembly for action during the coming year. These “NBIs” translate the mission, objectives and resolutions of the organization into specific action.

Also included here are the Bylaws of NSEA-Retired, the Ethnic and Minority Affairs Committee, the NSEA Higher Ed Academy and the Education Support Professionals Committee. Thank you for supporting your professional Association with your membership and your commitment to quality public education.

Sincerely,

Jenni Benson

BYLAWS OF THE NEBRASKA STATE EDUCATION ASSOCIATION

■ Article I: Membership

SECTION 1. Any person employed in a publicly-funded educational institution as a certified staff member or in an educational support professional position shall be eligible for membership in the Nebraska State Education Association, hereinafter referred to as the Association. Any person joining the Association shall agree to its purposes and objectives, shall maintain membership in the affiliated local association and the National Education Association where eligible, and shall agree to abide by the provisions of these bylaws.

SECTION 2. There shall be eight (8) classes of membership in the Association: Active Professional; Active Educational Support Professional; Substitute; Reserve; Special Services; Student; Retired; and Staff.

(a) Active membership shall be of two types, Professional and Educational Support Professional (ESP). Active Professional membership shall be open to any person who is engaged in or who is on a leave of

absence from the profession (teaching, administrating or substituting) or is serving as an elected officer of the Association or a chartered local association, or whose employment status is in dispute and for whom the Association is providing legal services. Active Professional members shall hold or shall be eligible to hold a baccalaureate or higher degree or the regular teaching, vocational or technical certificate required by their employment. Active Professional members regularly employed fifty percent (50%) or less of the normal schedule for full-time faculty members (as verified by the local association) are eligible to join the Association as half-time active members. Active Professional members shall be eligible to be voting delegates to the NSEA Delegate Assembly and the NEA Representative Assembly. Educators employed on a regular basis as a substitute teacher holding at least a baccalaureate degree are eligible for active substitute membership. The active substitute receives all the benefits of active membership. Dues for active substitutes employed full-time are 100 percent of Active Professional dues; for substitutes employed less than

full-time, the dues are fifty percent (50%) of NSEA active dues. Where no local association is available, an active professional may join NSEA/NEA directly.

Active Educational Support Professional (ESP) membership shall be open to any person who is employed in or who is on a leave of absence from an educational support position in a school district, college, university or other institution devoted primarily to educational work or who is serving as an executive officer of the Association, or whose employment status is in dispute and for whom the Association is providing legal services.

Active ESP members shall be eligible to be voting delegates to the NSEA Delegate Assembly and the NEA Representative Assembly. Where no local association is available, an ESP may join NSEA/NEA directly.

- (b) Substitute membership shall be open to any educational employee employed on a day-to-day basis (not under contract to an educational employer) who is otherwise eligible for active membership, and has the option of joining the Association as a substitute member unless said employee is drawing educational retirement benefits and is eligible for NSEA-Retired membership. Substitute members shall receive Educator's Liability Insurance. Substitute members shall not be entitled to vote or hold Association office, nor shall they be entitled to legal services. Dues for substitute members shall be 25 percent of the dues paid by active full-time members. Other benefits shall be determined by the NSEA Board of Directors.
- (c) Reserve membership shall be open to any person who is on a leave of absence of at least six (6) months from the employment that qualifies the individual for Active membership, or who has held Active membership but whose employment status no longer qualifies that individual for such membership.
- (d) The Board of Directors may require special services membership in the association for individuals no longer actively employed in education-related employment in order to be eligible to participate in any insurance program sponsored in whole or in part by the NSEA. Membership requirements and dues amounts, if any, will be set annually by the NSEA Board of Directors.
- (e) Student membership shall be open to any student enrolled in or preparing for a program of study in an accredited institution of higher learning that qualifies the student for a career in education, or serving as an elected officer of Student NEA or one of its affiliates. A student who is eligible for Association membership in both Student and Active membership categories may, with the approval of the NSEA Executive Committee, join the Association as a Student member.
- (f) Retired membership shall be open to any member

who has reached the age of forty-five (45) years or more, or is eligible to receive benefits under a school employee retirement system, and has held Active, Substitute, Reserve, or Staff membership in the Association or in another state affiliate or comparable membership in a corresponding membership category in the year in which employment ended, and who is not eligible for Active membership. Retired members are eligible to be voting delegates to the NSEA Delegate Assembly and the NEA Representative Assembly and may hold appointive positions in the Association.

- (g) Staff membership shall be open to any person whose primary professional employment is with the NSEA or its affiliated local associations.
- (h) Members who currently hold life memberships as of July 1973 will continue to have all the rights and privileges of Active members.
- (i) Any member may appeal the assigned class of membership to the Board of Directors.

SECTION 3. Any person joining as an Active member at the time of initial eligibility shall be enrolled in full standing for the remainder of the membership year by paying the amount of annual dues which is commensurate with the remaining portion of the membership year.

SECTION 4. The right to vote and to hold elective office or appointive position shall be limited to Active members except as otherwise provided.

SECTION 5. All Active members shall be eligible to receive Association services, to obtain assistance in the protection of professional and civil rights, and to receive reports and publications of the Association.

SECTION 6. The membership year shall coincide with the NEA membership year. Membership shall be continuous unless terminated for cause.

SECTION 7. Adherence to the NEA Code of Ethics shall be a condition of membership.

The Nebraska State Education Association (NSEA) supports a vision for public education which will allow local school districts, local education associations, and NSEA members to experiment with and formalize new forms of instructional decision-making. The Association also supports educational innovations which will enhance student learning, and protect student and employee rights. (June 2015)

A-2 Free Public Education

The Association opposes any attempt to diminish a free public education. (June 2015)

scope of public education, to encourage lifelong adult education services without eroding any current programs. (June 2015)

A-4 Equal Opportunity for Education

The NSEA believes all persons should be given equal opportunity for education and participation in school sponsored activities. Written student policies should be consistent with the guidelines established by federal and state agencies regarding discrimination. In cases of alleged discrimination based upon race, creed, color, national origin, gender, sexual orientation, marital status, age, economic status, physical disability, or size, students should be given a written copy of these policies and their rights should be protected. (June 2015)

A-5 Support for Special Needs Education

The NSEA believes in a free public education for all students with disabilities in Nebraska, as provided by the Individuals with Disabilities Education Act and its rules and regulations which provide for the implementation of IDEA at the state level. The Association supports funding which provides programs which will meet the needs of students with disabilities in general and special education settings.

The Association also supports the inclusion of a school nurse within the IDEA. (June 2015)

A-6 Preschool Programs

The NSEA believes public preschool programs should be provided by school districts. (June 2015)

A-7 Tax Equity

The NSEA believes that public education in Nebraska should be funded by a variety of taxes levied in an equitable manner and designated for the support of public education. (June 2015)

A-8 Public Funds for Public Schools

The NSEA believes in the principle that revenues of the state and its political subdivisions collected for education be expended for accredited public schools only. (June 2015)

A-9 Fiscal Autonomy Local School Districts

A-10 State Aid

The NSEA supports legislation for state aid to public preschool, elementary and secondary schools which:

- (a) Equalizes educational opportunities for all students.
- (b) Offers incentives to school districts that employ and retain experienced, well-trained professional educators.
- (c) Equalizes taxes for all Nebraska citizens.
- (d) Provides at least one-half of the total operating costs of the public schools from state funds. (June 2015)

A-11 New and Expanded Educational Programs

The NSEA believes legislation requiring new or expanded educational programs should be financed by state funds. (June 2015)

A-12 State School Lands

The NSEA believes in maximizing the revenue producing potential from state-owned school lands and funds to secure and enhance long-term funding for public schools and education employee salaries. (June 2015)

A-13 Federal Impact Aid

The NSEA believes officials of the federal government must provide economic stability for federally impacted school districts through federal appropriations in an amount equal to the increased per-pupil costs of those districts. (June 2015)

A-14 Reorganization

The NSEA believes all real property should be included in unified school districts which provide coordinated programs of instruction from preschool through the twelfth grade. Such unified districts should meet the educational needs of all children and guarantee full contractual rights and salaries to all education professionals. (June 2015)

A-15 Educational Service Units

The NSEA believes in the role of Educational Service Units in providing services, but not supervision, for local education agencies. (June 2015)

A-16 Vouchers and Tuition Tax Credits

The NSEA believes vouchers and tuition tax credits for parents of public and non-public school students constitute a serious threat to public education and opposes legislation that provides for vouchers and tuition tax credits. (June 2015)

A-17 Public School Privatization

The NSEA believes that public education services should be performed by public education employees. The Association opposes, in public school districts and educational institutions, any privatization or sub-contracting/contracting out arrangements that:

- (a) Transfer or displace education employees;
- (b) Replace full-time positions with temporary, part-time or volunteer workers;
- (c) Replace services that are or could feasibly be provided by public education employees or reduces resources otherwise available to achieve and/or maintain a system of quality public education or the potential to otherwise negatively impact public education;
- (d) Abrogate previously contracted benefits, reduce compensation, deny fringe benefits, and/or reduce or eliminate accumulated retirement experience and benefits;
- (e) Have not been agreed to by the affected affiliate.

Where sub-contracting/contracting out exists, the Association also believes that all personnel who are employed through the sub-contractor to work in the School District or educational institution must meet the highest standards of accountability. (June 2015)

A-18 Charter & Non-Traditional Public School Options

The NSEA believes in innovation in public education. The Association believes that when concepts such as charter schools and other non-traditional school options are proposed, all educational employees must be directly involved in the design, implementation and governance of these programs.

The Association also believes that plans should not negatively impact the regular public school program and must include adequate safeguards covering contract and employment provisions for all employees, voluntary participation, health and safety standards for all students and employees, nondiscrimination and equal educational opportunity, staffing by licensed professional staff and financial responsibility.

Furthermore, the Association believes that programs must be adequately funded, must include start-up monies, must not divert current funds from the regular public school programs and must contain appropriate procedures for regular periodic assessment and evaluation. (June 2015)

A-19 Home Schools

The NSEA believes that home schooling programs based

on parental choice do not provide children with a comprehensive educational experience, and that educational and social development is best achieved in an accredited public school setting.

NSEA also believes that home-schooled children must be immediate family members, and that all related educational expenses are the responsibility of the parent/guardians.

Further, the Association believes that students who are home schooled must meet Nebraska State Department of Education requirements including: approved curriculum, criterion reference assessments, and instruction by certificated individuals.

The Association also believes that home-schooled students are not eligible to participate in public schools' extra-curricular activities. In addition, the Association believes that local public schools have the authority to determine grade placement and/or graduation credits for home-schooled students entering or re-entering public schools. (June 2015)

A-20 Public Relations for Education

The NSEA supports an appropriate public relations program that enhances the public's support for public education. (June 2015)

A-21 Educational Partnership

The NSEA believes members should be active participants in community/business/education partnership programs, and believes the strength of these programs lies in joint planning, implementation and evaluation by professional educators, business personnel and community citizens. (June 2015)

A-22 State Legislators' Salaries

The NSEA supports efforts to increase salaries of state legislators, as representatives and voices for public education within the government. (June 2015)

A-23 Lease-Purchase Plan for School District Financing

The NSEA supports the concept of lease-purchase financing as appropriate for school districts. (June 2015)

■ Promote Quality Education, Curriculum and Assessment

B-1 Family Participation

The NSEA believes that active family participation is essential to the successful education of children. We believe that families should be included as partners in their children's education; and encourage educational employees to support programs and local policy which promote the active participation of the family. (June 2015)

B-2 School Age and Attendance Laws

The NSEA believes in compulsory school attendance from ages six to eighteen. (June 2015)

B-3 Student Achievement

The NSEA is dedicated to use its resources and to assist its local associations and members to promote high levels of

student achievement in every Nebraska school.

NSEA believes that to accomplish this goal each educational entity must provide:

- (a) A quality teacher in each classroom;
- (b) A safe, respectful, disciplined learning environment;
- (c) Quality professional development for all;
- (d) Full funding and resources provided for the above.

NSEA further believes that accountability for creating an effective learning environment that will lead to high levels of student achievement must be shared by students, parents, teachers, local administrators and school boards, the community, the Nebraska Department of Education, and the Nebraska Legislature. (June 2015)

B-4 Standards for Student Learning

The NSEA believes in high academic standards that clearly describe expectations for what students should know and be able to do. Throughout the implementation of any content and performance standards, all students must be provided the instructional opportunities and learning conditions necessary to attain the standards. The NSEA believes that effective implementation of standards must insure that:

- (a) Students, parents/guardians, educational employees, community members and government officials share in the accountability.
- (b) Professional development is provided for all educational employees to help align their practices to the standards.
- (c) Educational employees are afforded released time and/or compensation in order to have opportunities to work with colleagues on a regular basis throughout the school year on how to teach and assess student proficiency in the standards.
- (d) Full funding and resources are provided for development and implementation.
- (e) Curriculum includes, but is not limited to, required standards. Standards should not be used to narrow the curriculum to the exclusion of art, music, physical education, world languages, global competencies, humanities and other educational programs.
- (f) Standards should be introduced into the curriculum at a rate that allows educational employees opportunities to adapt their practice, work with each other, and pilot their work in a concerted fashion.
- (g) Assessments are used to evaluate each student's progress toward attaining standards.
- (h) Appropriate attention is given to the needs and developmental levels of each student, including students with special needs and English Language Learners (ELL).

- (i) Education employees participate in the review and refinement of standards and assessments. (June 2015)

B-5 Class Size

The NSEA believes that excellence in the classroom can best be attained by a small size. Class size maximums must be based on the type of students, grade level, subject area content, and physical facilities.

The Association also believes in optimal class sizes in regular programs, and a proportionately lower number in programs for students with exceptional needs. Weighted class size formulas should be implemented to reflect the inclusion of exceptional students.

The Association further believes in establishing workload maximums for all curricular areas, not to exceed the recommendations of their respective national organizations.

The Association believes that the Nebraska Department of Education should on a yearly basis, collect and report class size data that reflects the class size experienced by most students. (June 2015)

B-6 Multiple Curricular Preparation

The NSEA believes that the number of preparations a K-12 teacher is assigned must be in reasonable proportion to the amount of plan time made available to the teacher. The NSEA also believes that when K-12 teachers are given multiple preparations, all due consideration must be given to class size and the student composition of the classes in order to assure that the expectations placed upon the teacher are reasonable and equitable in order to provide students with a quality education. (June 2015)

B-7 Adequate Supplies

The NSEA believes school districts should furnish educational employees with adequate instructional supplies and equipment. (June 2015)

B-8 Assessment of Student Learning

The NSEA believes in the on-going comprehensive assessment of student growth. The student's level of performance is best assessed with authentic measures directly linked to the lessons teachers teach and the materials teachers use. The NSEA believes the primary purpose of assessment is to:

- (a) Assist students and their parents/guardians in identifying the student's strengths and needs.
- (b) Encourage students to become lifelong learners.
- (c) Measure a program's effectiveness, communicate learning expectations, and provide a basis for determining instructional strategies.
- (d) Develop appropriate learning experiences for students.

The NSEA also believes that no one measure should be used to determine a student's performance. Teachers and school districts should utilize a variety of measures to accurately assess student growth. Methods of assessment should be free of cultural, racial and gender biases. Assessment should, in addition to measuring the acquisition of facts and knowl-

edge, measure the student's social development, the ability to think critically, and to apply learning to new situations.

The NSEA further believes that classroom teachers must be involved in the development and implementation of assessment systems, the criteria for assessment of students and dissemination of results. (June 2015)

B-9 Standardized Testing of Students

The NSEA believes that standardized tests should be used to improve the quality of education and instruction for students. Standardized tests are most useful when selected by educational professionals closest to the classroom and integrated with assessment information specific to local programs. Local associations should advocate the design and use of a variety of developmentally and linguistically appropriate assessment techniques that allow necessary accommodations for students with special needs that are bias-free, reliable, and valid.

The Association also believes that assessments must be appropriate for their purpose. In addition, a minimum of three years is needed to adequately develop and alter assessments, in order to ensure accuracy.

The NSEA opposes the use of standardized tests when:

- (a) Used as the criterion for the reduction or withholding of any educational funding.
- (b) Used inappropriately to compare students, teachers, programs, schools, communities and/or states, because resources, funding, student abilities differ vastly.
- (c) Used as a single criterion for high-stakes decision-making, such as determining whether or not a student may graduate from high school.
- (d) Used when they do not match the developmental levels or language proficiency of the student.
- (e) Used to evaluate individual teachers or to determine the compensation or employment status of educational employees.
- (f) Used when programs are specifically designed to teach to the test.

The Association further believes that the administration of standardized tests by local school districts and the state of Nebraska includes the responsibility to educate the stakeholders in the purpose of the test, the meaning of test results, and the accurate interpretation of conclusions. (June 2015)

B-10 Education for All Students with Disabilities

The NSEA supports a free, appropriate public education for all students with disabilities in a least restrictive environment, which is determined by general and special education teachers, pupil personnel and related service providers, educational support professionals who work with the student, administrators, parent/guardian, and the student, as appropriate. There must be a full continuum of placement options and services/delivery models available to students with disabilities to meet their individualized program needs. (June 2015)

B-11 Concept of Inclusion

The NSEA believes that it is the responsibility of the school district to provide a full continuum of services in the least restrictive environment for students with disabilities. This continuum of services may include, but not be limited to, a categorical special education classroom, resource room settings and inclusion in general education settings with appropriate accommodations.

The Association also believes that all materials produced by or for education purposes must be accommodating to all students.

Furthermore, the NSEA supports the least restrictive environments that are based upon the student's individual learning, social and emotional needs. Consideration for service delivery models should include appropriate staff to adequately address the disabled student's needs in all settings, including the general education classroom. (June 2015)

B-12 Internet Usage and Programming

The NSEA believes that developers of Internet materials should strive for quality, accurate information, correct grammar usage and promotion of educationally-sound programming. Parents and educational employees should monitor students' use of the Internet. (June 2015)

B-13 Library Media Programs

The NSEA believes that library media programs provided by certificated library media specialists have a positive impact on the education of all students. Strong library media programs help students develop life-long learning skills necessary for success in a changing global society. (June 2015)

B-14 Family Life Education

The NSEA believes that age-appropriate human growth and development courses or units should be included in the public school curriculum. (June 2015)

B-15 Science Education

The NSEA believes that the content in science education must be based on empirical evidence derived from the scientific method and must include the processes of that method. The Association also believes that the content and curriculum must be based on national and/or state Science Education Standards. (June 2015)

B-16 Environmental Support

The NSEA believes environmental education and ecology programs should be included in the curricula and practiced within the district.

The NSEA also supports legislation and appropriations to preserve our natural environment. (June 2015)

B-17 Fine Arts Education

The NSEA believes that artistic expression is essential to an individual's intellectual, aesthetic, and emotional development. The Association also believes that the fine arts transcend cultural barriers, foster multicultural understanding, and enhance critical thinking skills. The Association further believes that pre-kindergarten through adult education curricula must include a balanced, comprehensive, and sequen-

tial program of fine arts instruction for all students, regardless of geographical location or economics. The fine arts are defined as visual art, music, drama and dance. These students must be taught by a licensed fine arts teacher, in a facility or room designed and equipped for that purpose. Resources must be provided to maintain and upgrade materials and provide for emerging technologies, as well as, the same amount of planning time provided for all teachers.

The Association further believes in the promotion, expansion, and implementation of an academic fine arts program in curricula and as a requirement for high school graduation. (June 2015)

B-18 Physical Education

The NSEA believes that physical activity and exercise are essential for good health and must be encouraged during the developmental years of students. The Association also believes that a comprehensive program of physical education should be provided daily in grades preschool through adult in or on facilities designed for that purpose. Physical education programs and curricula should follow national and/or state standards as set forth by the appropriate professional organizations; should be developmentally appropriate, sequential, cooperative in nature, and culturally and gender sensitive; and should:

- (a) Emphasize physical activity, fitness, exercise, and good health; skills of sports, games, dance, and basic movement; and related concepts and knowledge.
- (b) Assess students, including physical fitness testing, as a culmination of preparatory activities, and develop a fitness plan that is tracked for progress.
- (c) Provide for the special needs of students with low fitness, physical disabilities, or learning disabilities.
- (d) Be taught by teachers licensed in physical education.
- (e) Be taught with the same student/teacher ratio as other grade level class sizes and be provided the same amount of planning time. (June 2015)

B-19 Teaching Democratic Principles

The NSEA believes educational institutions should promote democratic principles, uphold respect for law, uphold respect for order, and protect individual rights. (June 2015)

B-20 Multi-Cultural Instructional Materials

The NSEA believes school districts should adopt instructional materials which provide a fair and balanced treatment of the local, state, and national contributions of all people, including but not limited to women and minorities. (June 2015)

B-21 Study of Diverse Cultures

The NSEA believes the cultural heritage of all persons should contribute to their positive self-image. It is important that the study of the diverse cultures, and their important contributions to humankind, be included in the curriculum of our Nebraska schools to promote mutual respect and understanding of diversity. These cultures should be presented in such a manner that persons with that cultural heritage can feel self-worth from the curriculum. (June 2015)

B-22 Educational Television and Public Radio

The NSEA believes in the continued development and financial support of statewide instructional television programming and national public radio as supplements to the instructional curriculum of each school district. (June 2015)

B-23 Technology Education

The NSEA believes in the inclusion of technology literacy in school curricula including Internet training with access for all students and educational employees. (June 2015)

B-24 Distance Education

The NSEA believes that quality distance education can create or extend learning opportunities not otherwise available to all students. The NSEA believes that, to ensure quality, distance education courses must:

- (a) Be at least as rigorous as similar courses delivered by more traditional means.
- (b) Meet accreditation standards.
- (c) Have content that is relevant, accurate, meets state and local standards, and is subject to the normal processes of collegial decision making.
- (d) Meet the objectives and requirements out-lined in the official course description.
- (e) Have student/faculty ratios that ensure the active engagement of students and high academic achievement.
- (f) Have appropriate procedures mutually agreed upon by the instructor and the institution for evaluation and verification that the student is submitting his/her own work.
- (g) Have instructors whose qualifications are the same as those of instructors teaching in traditional classes and who are prepared specifically and comprehensively to teach in this environment.
- (h) Be integrated into the mission and consistent with the overall offerings of the institution.
- (i) Provide fair use exemptions for participants' access to copyrighted materials for educational purposes.

The Association further believes that the institution offering the courses must provide:

- (a) Adequate infrastructure.
- (b) Appropriate facilities and equipment.
- (c) Libraries and laboratories as needed.
- (d) Adequate support and technical professionals on or off campus.

The NSEA also believes that the rights of the education employees delivering and monitoring the courses must be protected through the normal process of collegial decision making and, when relevant, collective bargaining. These rights should include, but not be limited to:

- (a) Determining the appropriateness of the introduction

of distance education into a school setting and the uses and impact of such education.

- (b) The intellectual property rights of instructors.
- (c) Revenue received from distance learning courses.
- (d) Revisions to, reuse of, and duration of such courses.
- (e) Distance learning teachers must have additional planning time, and/or additional compensation, on-going technological training and support to insure quality learning for all students.

The NSEA further believes that the rights of the students taking the courses must be protected. These rights must include, but not be limited to:

- (a) Appropriate equipment, technical support, libraries, and laboratories.
- (b) Appropriate student services.
- (c) Accurate course descriptions and expectations prior to enrollment.
- (d) Individualized interaction with their instructor.
- (e) Opportunities for appropriate student-to-student interaction. (June 2015)

■ Promote the Health and Welfare of Children and/or Students

C-1 Cooperative Improvement of Instruction

The NSEA believes students, parents, local education association representatives, professional educators, administrators, boards of education and community groups should work cooperatively to structure the curriculum and the school environment to best serve the students. (June 2015)

C-2 Responsibility of Society to Children

The NSEA believes that all of society is responsible for meeting the basic needs of Nebraska's children and youth. (June 2015)

C-3 Coalition for Children

The NSEA believes it is essential to establish a coalition of associations and organizations which have an interest in the well-being of all of Nebraska children and youth. (June 2015)

C-4 Building Supervision

The NSEA believes all schools in session with students in attendance shall be monitored at all times by an administrator who is certificated and so designated by the board of education. (June 2015)

C-5 Safe Learning and Teaching Environments

The NSEA believes that a safe school climate is the right of all students and school employees. The Association also believes communities must develop policies and practices that ensure safe schools.

The Association also believes students and education em-

employees must be safe from physical, verbal, and psychological violence, the threat thereof, and all forms of harassment. There must be procedures to prevent and eliminate all types of harassment that might occur. Plans and procedures regarding discipline and/or harassment must include due process.

The Association further believes that school security personnel must be properly trained to interact with students and intervene with those exhibiting violent behavior.

The Association believes that all school buildings should have controlled access during the school day. Schools and school districts should implement policies and procedures that monitor visitor access, such as check-in and wearing of identification badges.

The Association believes that students must be taught strategies and skills, including conflict resolution that develop respect, self-discipline, and self-control. Students must learn to distinguish between their own rights and responsibilities and the rights and responsibilities of others. There must be appropriate services and placement within regular education and alternative education programs and/or with state and/or community agencies for students who disrupt the learning environment or who are dangerous to other students, education employees, and themselves.

The Association believes that a safe and effective school has a positive environment in which education employees, students, parents/guardians, and the community care for, communicate with, respect, understand, and trust each other. (June 2015)

C-6 Educational Competition

The NSEA believes competition between students, educational employees and schools can be beneficial only if it is used to enhance learning. (June 2015)

C-7 Student Behavior

The NSEA believes local associations and boards of education should develop effective disciplinary policies to maintain orderly classroom management and to correct disruptive behavior.

The Association also believes that these written policies must contain plans and procedures that are fair, equitable, and consistently enforced. The Association further believes that school personnel must be properly trained to interact with students exhibiting violent behavior.

The Association believes that policies promoting educational processes which emphasize prevention, effective interventions, and rehabilitation will decrease the use of out-of-school suspensions, expulsions, in school arrests, and the phenomenon that is commonly referred to as the “school-to-prison Pipeline” that can lead to future incarcerations.

The Association further believes that it is in the best interest and safety of all, if education employees are confidentially informed of students with known serious behavior problems or a history of violence. This is especially important in our ever-mobile society as students move from school to school.

The Association believes that appropriate school behavior begins and is reinforced in the home. Parents/guardians of children who are disruptive often need support and training in order to reduce inappropriate behavior and increase student learning. Programs that provide assistance and training in child development, effective parenting skills, and strategies for dealing with disruptive students must be available for parents/guardians. Schools can be instrumental in identifying and recommending strategies that can assist parents/guardians. (June 2015)

C-8 Bullying

The NSEA believes that the school environment should be free from all forms of bullying. Bullying is the repeated intimidation of others by real or perceived infliction of physical, verbal, written, electronically transmitted, or emotional abuse.

The Association also believes that bullying in schools is not limited to students but may affect school employees as well. The NSEA further believes that professional development, materials, and resources should be available to all staff to address the issue of bullying. (June 2015)

C-9 Weapon Free Schools

The NSEA believes that all students and education employees must be allowed to learn and work in an environment free of unauthorized guns and other deadly weapons. Severe penalties should be enacted and strenuously enforced for criminal actions involving guns and other deadly weapons, especially in school settings.

The Association also believes that individuals who bring unauthorized guns and other deadly weapons should be excluded from school and school grounds until undergoing mandatory prescribed intervention.

The Association further believes that a weapon free learning environment should include security systems within the school campus and security/evacuation plans that are reviewed and practiced regularly.

The Association also believes that students and education employees should never be allowed to carry firearms in an educational environment, unless explicitly used for school-sanctioned activities. (June 2016)

C-10 K-12 Guidance and Counseling

The NSEA believes increased guidance and counseling services, especially at the elementary school level, would enhance student self-concept and help ensure full individual academic growth potential.

The Association also believes that a District should provide to all students in every building full-time school counselors who are trained and available to help students deal with personal, social, academic and vocational concerns. (June 2015)

C-11 Programs for Student Stress

The NSEA supports appropriately accredited and licensed mental health and aftercare programs for students suffering mental, emotional and environmental pressures. The Association urges local affiliates to support legislation and pub-

licity for these programs. (June 2015)

C-12 School Nursing Services

The NSEA believes local school boards should provide adequate student-to-nurse ratios, that Registered Professional Nurses should deliver school health services and that the Nebraska Department of Health should continue to provide a School Nurse Consultant. (June 2015)

The NSEA believes all educational employees should receive in-service training about communicable diseases, including, but not limited to, herpes, hepatitis and HIV/AIDS. (June 2015)

C-14 Child Abuse

The NSEA believes professional educators must report to proper authorities any suspected or observed evidence of child abuse. (June 2015)

C-15 Protection from Exploitation

The NSEA believes that children are an especially vulnerable and easily exploited audience who must be protected from exposure to violence, prejudice, sexual content, and stereotyping by mass media, the Internet, and products that are accessible to children.

The Association is committed to working cooperatively with media producers, advertisers, and manufacturers in developing products that protect the interests of children. The Association encourages the producers of mass media to select and use age-appropriate subject matter in their products targeted at children.

The Association also encourages all radio and television programming executives, when determining the appropriateness of program subject matter and the development of broadcasting schedules, to consider children's ages. The Association further encourages advertisers and media professionals to use standard grammar and correct spelling and to refrain from the use of stereotypical and/or discriminatory terminology and profanity.

The Association encourages the producers of games and toys to make explicit to consumers, prior to purchase, the nature of a product's content through specific labeling. The Association believes that regulations restricting the purchase of games and toys based on age appropriateness be developed and enforced.

The Association deplores exposing children as consumer-test groups to violent interactive games and products in order for manufacturers to determine how to increase or refine the violent content for the express purpose of increasing sales.

The Association also believes that, through media literacy education, education employees, parents/guardian, and children must become critical users of mass media, the Internet, and other products accessible to children.

Furthermore, the Association encourages its affiliates to provide means for education employees to assist parents/guardians in the selection of appropriate media, games and

products for their children. (June 2015)

C-16 Missing Children

The NSEA supports the NEA in its efforts to locate missing children by working cooperatively with local programs and authorities to raise awareness of missing children. (June 2015)

C-17 Substance Abuse

The NSEA believes that inhalant, drug, alcohol, and tobacco/nicotine abuse negatively impacts student health and welfare, and interferes with effective instruction and student learning. NSEA supports:

- (a) Appropriate educational experiences to educate students about the serious consequences of participating in any aspect of the illegal drug trade.
- (b) Standardization of drug laws, including the sale and distribution of drugs.
- (c) Prohibition of the production, sale and distribution of drug paraphernalia.
- (d) Improvement of drug prevention and rehabilitation programs.
- (e) Mandated drug rehabilitation programs for any violation or conviction, whether civil or criminal, resulting from the possession or use of a controlled substance.
- (f) Research on the genetic and neurological damage done to children through parental substance abuse and the impact on student learning and behavior.
- (g) Strict enforcement of the legal drinking age and the laws governing the sale of alcoholic beverages.

The NSEA opposes the illegal use of drugs and controlled substances, and believes that severe penalties for illegal production, distribution and sale should be strictly enforced. (June 2015)

C-18 Environmentally Safe Schools

The NSEA believes that all educational facilities must have healthy indoor and outdoor air quality, be smoke-free, and be safe from environmental and chemical hazards, and provide clean water. School districts should conduct periodic testing for harmful water and airborne particles/agents that are detrimental to the health of students and educational employees.

The Association also believes in the establishment and enforcement of standards of the Occupational Safety and Health Administration (OSHA) to ensure health and safety. (June 2017)

C-19 Student Transportation

The NSEA believes in safe and orderly transportation of students. In compliance with State and Federal rules and regulations, procedures must be developed collaboratively, enforced, and constantly reviewed and revised to ensure this. In addition to an annual vehicle inspection, the proper agencies should also conduct random inspections.

The Association also believes that local school districts should provide students with transportation for all school-related activities. Students should not be transported by

public school employees in their personal vehicles for these activities. (June 2015)

C-20 School Emergency Plans

NSEA believes that schools, school districts, and school transportation systems must have written plans that delineate procedures that include, but are not limited to, lockouts, lockdowns, evacuations, and shelters. Plans must include rapid reaction criteria and procedures coordinated with on-campus personnel, community and other appropriate first responders. Emergency plans for each school site must be developed by school personnel in partnership with the community.

The Association also believes for these plans to be effective, they must be practiced and updated on a regular and consistent basis. Plans must include stress management/counseling strategies as follow up care for students, and staff when appropriate. (June 2015)

■ Promote Professional Excellence Among Educators

D-1 Education as a Career

The NSEA believes students should be encouraged to pursue a career in the field of education. (June 2015)

D-2 The Teaching Profession

The NSEA believes that the teaching profession is a cornerstone of society.

The goal of the profession must be to provide the highest quality of education to all students. To achieve this goal, the profession must be composed of individuals who meet the highest standards. These standards must be established, maintained, and governed by the members of the profession and must apply to recruitment, teacher preparation, induction, professional development, evaluation, practice, and accountability. Members of the teaching profession must assume expanded leadership roles and must have the time, resources, and decision-making authority to provide the highest quality of learning for each student.

The Association believes that the NEA Principles of Professional Practice define the knowledge, skills, and dispositions a quality teacher should possess. A quality teacher:

- (a) Designs and facilitates instruction that incorporates the students' developmental levels, skills, and interests with content knowledge.
- (b) Develops collaborative relationships and partners with colleagues, families and communities focused on meaningful and deep learning.
- (c) Provides leadership and advocacy for students, quality education, and the education profession.

- (d) An understanding of their professional rights and responsibilities, including the NEA and Nebraska Codes of Ethics.
- (e) Increased intern experiences in the candidates' endorsed fields.
- (f) An understanding of their rights and responsibilities in redefining and restructuring the curriculum to better serve student needs.

The Association also believes that pre-professional educators should not be assigned as substitute teachers during their student teaching experiences. (June 2015)

D-4 Mentoring

The NSEA believes it is the responsibility of the Association to be actively involved in the mentoring process. (June 2015)

D-5 Professional Development for Education Professionals

D-6 Evaluation of the Professional Educator

The NSEA believes evaluation of the professional educator must be conducted on a scheduled basis for the purpose of improving performance. The association also believes that evaluations of teachers must be comprehensive — based on multiple indicators that provide teachers with clear and actionable feedback to enhance their practice — with components that include indicators of teacher practice, teacher contribution and growth, and contribution to student learning and growth. The evaluator must hold a current Nebraska Administrative certificate, remain current in best classroom practices, and have opportunities annually to prepare and teach lessons. Written evaluations followed by timely conferences that suggest possible solutions and reasonable timelines to correct alleged deficiencies are pre-requisite for

non-renewal of a professional educator's contract. If, following such an evaluation, a teacher's practice fails to meet performance standards, a teacher should be provided with clear notice of the deficiencies, and an improvement plan should be developed by the teacher, local association and employer. The procedures must be developed mutually by and acceptable to the local association, the administration, and the governing board. The evaluation process should be based on pre-identified criteria. (June 2015)

D-7 Teacher Competency Testing

The NSEA opposes the use of state or federally mandated professional educator competency testing for evaluation or re-certification, except when administered by teacher preparation institutions to evaluate teacher candidates prior to recommendation for initial teacher certification. (June 2015)

D-8 International Teacher Exchange Program

The NSEA supports an active international teacher exchange program. (June 2015)

D-9 Qualified Educational Support Professionals

The NSEA believes that qualified Education Support Professionals are a vital resource and should be employed and retained to ensure the quality of education for all public school students.

The Association also believes that Education Support Professionals should be employed only to enhance the effectiveness of the professional educators, not used in place of certified teachers. (June 2016)

D-10 Professional Development for Education Support Professionals

The NSEA believes that paid professional development should be provided throughout a career of Education Support Professionals. Professional development programs should provide equal opportunities for Education Support Professionals to gain and improve the knowledge and skills important to their position and job performance. Professional development programs should ensure that Education Support Professionals have a decisive voice at every stage of planning, implementation, and evaluation.

The Association also believes that professional development and continuing education serve as catalysts to recruit, retain, and promote qualified education support professionals.

The Association further believes that professional development course offerings should be ongoing throughout the school year, should be made available by education stakeholders, and employees should be compensated for time outside the scheduled work day. (June 2015)

The NSEA believes all persons should be given equal opportunity for employment, promotion, compensation and leadership in all activities. Written personnel policies should be consistent with the guidelines established by federal, state and local agencies. These guidelines should be considered for advising NSEA members of their rights regarding acts of alleged discrimination based upon race, creed, color, national origin, gender, sexual orientation, marital status, economic status, age, physical disability, health, size, or participation in Association activities. (June 2015)

E-3 Academic and Professional Freedom

- (b) Occasions which enhance the student/professional educator relationship.
- (c) Reasonable, carefully-defined workloads.
- (d) Duty-free lunch periods of no less than thirty (30) minutes.
- (e) At least fifty (50) consecutive minutes for planning and student consultation during the student day without other assigned duties.
- (f) Elimination of non-instructional tasks.

F-4 Commission of Industrial Relations

The NSEA supports the Commission of Industrial Relations as an agency for settling employment disputes in the public sector. (June 2015)

F-5 Scope of Negotiations

The NSEA supports collective bargaining and the expansion of the scope of negotiations to include all terms and conditions of employment. (June 2015)

F-6 Economic Development, Education, and Teacher Compensation

The NSEA believes that the economic growth and vitality of Nebraska depend upon a well-educated citizenry and competitive workforce. Excellence in public schools and post-secondary education is central to economic development. A high-quality staff is one of the primary determinants of student achievement and success. Therefore, the Association believes the Legislature should fund regionally- and nationally-competitive salaries and benefits for education employees. (June 2015)

F-7 Withdrawal of Professional Services

The NSEA believes educational employees should have the legal right to withhold professional services. Educational employees should withdraw services as a last resort for correcting intolerable conditions or when boards of education are unwilling to negotiate in good faith. (June 2015)

F-8 Minimum Provisions for Negotiated Agreements

The NSEA affiliates shall negotiate formal agreements with their governing boards which include these minimum provisions:

- (a) School calendar, school day and student contact time.

- (ab) Correct placement on the salary schedule. (June 2015)

F-9 Equitable Salaries

The NSEA believes that salary and compensation for teachers and all education employees should be equitable, regardless of the school district size, geographic location, or economic wealth.

The Association also believes that state aid resources for teacher compensation and guidelines for minimum salary(ies) are needed to provide equity and economic competitiveness. Local associations should bargain compensation and benefits above the state standards that may be established. (June 2015)

F-10 Comparable Salaries

The NSEA believes educational employees should receive salaries and compensation comparable to those in other professions requiring similar preparation. (June 2015)

equal importance. The NSEA also believes that preferential treatment in preparation opportunities or compensation is inequitable. (June 2015)

F-14 Negotiations of Salaries and/or Fringe Benefits

The NSEA believes in the right of local associations to negotiate salaries and benefits with their governing boards under the Commission of Industrial Relations Act without property tax and budget limitations imposed by the Legislature. (June 2015)

F-15 Pre-professional Educators' Liability Insurance

The NSEA believes each college or university should require proof of liability insurance from every pre-professional educator. (June 2015)

F-16 Minimum Criteria for Additional Compensation Beyond the Single Salary Schedule

The NSEA believes that designing and implementing any new or additional educational employee compensation structure should be administered through a successful exchange process. The Association supports legislative incentives for local negotiated alternative salary systems.

The Association also believes that any system that provides additional compensation to educational employees beyond that provided by the single salary schedule should meet the following minimum criteria:

- (a) The design of the system must be accomplished through the collective bargaining process.
- (b) Any additional compensation beyond the salary schedule must not be based on education employee evaluation, student achievement scores or attendance.
- (c) The criteria that are used to determine whether education employees receive the additional compensation should be clearly stated and subject to objective measurement.
- (d) The system should not directly or indirectly limit the number of education employees who are eligible for the additional compensation.
- (e) Full funding should be available to sustain the system. The allocation of funds to provide the additional compensation should not prevent increases in the basic compensation for all education employees; and
- (f) The systems should not diminish the professional status of those education employees who do not receive the additional compensation or in any way suggest that such education employees are not qualified for the positions that they hold. (June 2015)

F-17 Professional Leave

The NSEA encourages local association affiliates, boards of education and school administrators to establish policies for granting professional leave to educational employees, without loss of salary, to attend educational meetings and to participate in professional organization activities. (June 2015)

F-18 Health Examinations

The NSEA believes physical and mental examinations of education employees should be required only when there

is probable cause except when mandated by state or federal laws. Results of such examinations shall be subject to medical confidentiality and the education employee shall be informed of all results.

The Association believes that health related information must not be released without the written consent of the employee. The employee must have the right to examine and, if needed, correct his/her medical records. The Association also believes that the cost of any required physical or mental diagnostic procedure should be incurred by the agency that requires such procedure and that the employee should be guaranteed the right to select their own medical professional. (June 2015)

F-19 Reduction-In-Force Policy

The NSEA believes every educational employee in the State of Nebraska should be covered by a reduction-in-force policy based on seniority. To protect affirmative action programs, NSEA supports the following guidelines:

- (a) Majority and minority personnel should be reduced in proportion to the overall percentage of staff they represent.
- (b) Any employee so reduced should be given preferential re-employment for two years for any position for which that person is legally qualified.
- (c) Re-employment should be in the same majority/minority proportions without loss of tenure or financial benefits.

The NSEA also believes educational employees facing reduction in force are entitled to information about employment opportunities inside and outside of education. Retraining of educational employees terminated because of reduction in force is the responsibility of the governing boards. (June 2015)

F-20 Educational Employee Replacement

The NSEA believes that educational employees should not be eliminated or replaced by distance learning, packaged instructional programs or privatization. (June 2015)

F-22 Retirement Benefits

The NSEA affirms its support for the current Defined Benefit retirement plans for providing core retirement benefits for retired educational employees, and supports legislation that will improve and enhance retirement benefits for all active and retired educational employees. The NSEA believes retirement benefits offered for educational employees should include, but not be limited to, the following un-prioritized items:

- (a) An annual, automatic Cost of Living Adjustment (COLA) that is linked to the Consumer Price Index-Urban (CPI-U) with a minimum of 3 percent per year.
- (b) A Restoration of Purchasing Power (ROPP) COLA that would increase retirement payments for retir-

ees to provide 95 percent of the purchasing power of the pension at the time of retirement.

- (c) Introduction of a benefit for current and future retirees that would provide assistance with medical costs after retirement.
- (d) An increase in the formula benefit multiplier above the current 2.0 percent of the highest 3-year average salary times the number of years of creditable service.
- (e) A lowered actuarial reduction for those retirees who are at least 55 years old but do not qualify for Rule of 85 — the reduction being 3 percent for “Rule of 84;” 6 percent for “Rule of 83;” 9 percent for “Rule of 82;” 12 percent for “Rule of 81;” and 15 percent for “Rule of 80.”

The NSEA also believes that Retirement Systems for education employees should be fully funded, with the majority of the cost borne by the employers and/or the State; that any state contributions to the retirement system from general tax revenues should be distributed equitably to all public school employees in the state; and that all public employees retirement boards of trustees should have a composition that guarantees representation proportional to the fund assets of each member group, with member organizations having a greater voice in the selection of those trustees. (June 2016)

F-23 Social Investments of Retirement Funds

The NSEA believes the Nebraska Investment Council should resist any efforts to limit retirement fund investments based on social issues. (June 2015)

F-24 Social Security

The NSEA believes that Social Security and pension income are intended to keep our elderly and disabled citizens out of poverty. The Association further believes these funds should not be used as a source of revenue for the state.

Therefore, the Association supports the position that Social Security and pension funds should not be subject to state income tax. (June 2015)

■ Secure Professional Autonomy

G-2 Teacher Certification

The NSEA supports the legal requirement that all Nebraska professional educators shall be certificated by the State of Nebraska in order to practice the profession of teaching within the state, and that such certification be granted only after successful completion of a prescribed course of study in a teacher-training institution accredited by the State Board of Education and the Council for the Accreditation of Educator Preparation. (June 2016)

G-3 Certification Fee

The NSEA believes that the fees assessed for teaching certificates should finance the cost of issuing those certificates. The operation of the Professional Practices Commission and the State Department of Education should be funded by the Legislature. (June 2015)

G-4 Professional Educator Specialization

The NSEA believes professional educators should be assigned classroom responsibilities only in their areas of specialization or training.

Furthermore, the Association believes that when a teacher shortage exists, the State of Nebraska should grant K-12 teacher certification only to individuals who have received appropriate educational training in their respective fields of education. (June 2015)

The Association supports voter education to alert voters to voting laws and procedures and key political issues. The Association also supports written governing board policies to guarantee education employees their political rights. The Association further believes that local

government units should be prevented from restricting the right of education employees to run for any elective office. Provisions should be made to enable education employees to serve in public office without curtailment of annual increments, tenure, retirement, or seniority rights, or to carry out jury duty without personal financial loss.

The Association believes that it is the duty and responsibility of education employees to involve themselves in the selection, election, and reelection of qualified, committed candidates who support legislation and policies that will provide quality education. Therefore, the Association urges its members to become politically involved and to support the political action committees of the Association and its affiliates. (June 2017)

H-3 The Right to Vote

The NSEA recognizes the right to vote as a constitutional right guaranteed to all eligible citizens. The Association supports the continued maintenance of the provisions of the Voting Rights Act of 1965.

The Association also supports voting and absentee provisions that are accessible, simplified, accurate, reliable, and verifiable for all elections and further supports election procedures that provide for open, fair, secure, and publicly verifiable ballot counting.

I-2 American Indian/Alaskan Native Education

The NSEA recognizes that the complex and diverse needs of American Indian/Alaska Native children require the direct involvement of parents/guardians, Native educators, tribal leaders, and other Native groups in developing programs that preserve the rich heritage of their cultures. The Association believes that funding for American Indian/Alaska Native education must provide for improvements. The Association supports the movement toward self-determination by American Indians/Alaska Natives provided that such programs are voluntary. These bylaws recognize a change in the demographics of America's population. Code of Ethics of the Education Profession

PREAMBLE

The National Education Association believes that the education profession consists of one education workforce serving the needs of all students and that the term 'educator' includes education support professionals.

The educator, believing in the worth and dignity of each human being, recognizes the supreme importance of the pursuit of truth, devotion to excellence, and the nurture of the democratic principles. Essential to these goals is the protection of freedom to learn and to teach and the guarantee of equal educational opportunity for all. The educator accepts the responsibility to adhere to the highest ethical standards.

The educator recognizes the magnitude of the responsibility inherent in the teaching process. The desire for the respect and confidence of one's colleagues, of students, of parents, and of the members of the community provides the incentive to attain and maintain the highest possible degree of ethical conduct. The Code of Ethics of the Education Profession indicates the aspiration of all educators and provides standards by which to judge conduct.

The remedies specified by the NEA and/or its affiliates for the violation of any provision of this Code shall be exclusive and no such provision shall be enforceable in any form other than the one specifically designated by the NEA or its affiliates.

origin, marital status, political or religious beliefs, family, social or cultural background, or sexual orientation, unfairly:

- a. Exclude any student from participation in any program.
 - b. Deny benefits to any student.
 - c. Grant any advantage to any student
7. Shall not use professional relationships with students for private advantage.
 8. Shall not disclose information about students obtained in the course of professional service unless disclosure serves a compelling professional purpose or is required by law.

PRINCIPLE II

Commitment to the Profession

The education profession is vested by the public with a trust and responsibility requiring the highest ideals of professional service.

In the belief that the quality of the services of the education profession directly influences the nation and its citizens, the educator shall exert every effort to raise professional standards, to promote a climate that encourages the exercise of professional judgment, to achieve conditions that attract persons worthy of the trust to careers in education, and to assist in preventing the practice of the profession by unqualified persons.

In fulfillment of the obligation to the profession, the educator:

1. Shall not in an application for a professional position deliberately make a false statement or fail to disclose a material fact related to competency and qualifications.
2. Shall not misrepresent his/her professional qualifications.
