

“Why should I be a member?”

Being an NSEA member gives you a stronger voice, better support, and real power to improve public education in Nebraska.

Meet Marsha Edquist, 3rd
Nebraska State Education Association

Joining your professional association gives you a voice in decisions that affect your classroom and career. By becoming a member, you'll gain support for both yourself and your students. Join in January or February and only pay dues for the remainder of the membership year—just about \$1.50 a day! Plus, new members will be entered into exciting prize drawings.

Consider the reasons your colleagues from across the state have joined:

Young kids who look like me need a strong role model so that they know that they too can become successful and they see it themselves.

*~ Anton Goodwin
Aspiring Educators,
Midland University*

Potential members should join for the support. With the help of NEA Member Benefits, I had over \$50,000 of my student loans forgiven. I had been carrying that debt around for almost 17 years.

*~ Sarah Salinas
Scottsbluff Education
Association*

NSEA and your local associations really help with everything you could imagine. They help with teaching you new things, help you get into and learn about the profession, and they also protect you. It's a safeguard in your career.

*~ Ross Pickel
Lincoln Education Association*
